Clinical Management and Governance Essentials

This masterclass combines evidence based modules that are all focused on improving the outcomes and experiences of your consumers and enabling the provision of safe and quality care in alignment with the Aged Care Quality Standards.

This program is designed to support clinical managers and leaders working in residential aged care and home care services. It navigates the complexity of the changing environment, in line with changing consumer expectations and co-morbidities. In particular, this course provides the essential knowledge and understanding of clinical governance and care management frameworks to enable the provision of safe and quality care and an improved and enabled lived experience for consumers.

On completion of this masterclass, you will be able to:

- Understand the essentials of being a good clinical leader and how to role model the expected behaviours
- Demonstrate leadership
- Manage High Impact, High Prevalence risk - Standard 3 (3) (b)
- Apply evidence based best practice methodologies to incident investigations
- Embed a culture of quality and safety that drives consumer experience
- Detail your role, professional responsibilities and boundaries
- Craft comprehensive care planning documentation in line with the Aged Care Quality Standards
- Co-ordinate and lead case conferences in line with the Aged Care Quality Standards
- Identify key policies and processes to ensure you are sufficiently up-to-date with current compliance risk drivers
- Lead quality improvement through your PCI, audits and quality cycle
- Improve the effectiveness of your clinical meetings and forums
- Understand the roster principles and the effects of upcoming legislative and regulatory changes
- Identify opportunities for ongoing professional development

What are the benefits?

- An engaged and upskilled clinical workforce
- Improve the consumer's experience
- Improve clinical management, reporting and adherence to the Aged Care Quality Standards
- Enhance accountability and well governed care
- Gain a better understanding of risk management
- Learn how to adapt and shift to sustain safe quality care

What's included?

- Six module comprehensive online course delivered remotely via Zoom
- One module per fortnight (1.5 hours)
